

Hire Smarter.

One platform for full-time, part-time and contract project work.

GigFinder.ai

Employer Platform Overview

GigFinder isn't just a Job board, an ATS, or a Freelancer marketplace...

GigFinder is a modern hiring platform for full-time, part-time, and contract project hiring. We give employers one intelligent hiring system for every workforce need, from permanent employees to specialized contractors, so hiring becomes faster, simpler, and more flexible.

Two Ways to Hire as a Verified & Trusted Employer

Whether you're building a permanent team or hiring specialized professionals for a project, GigFinder gives you the flexibility to recruit the way your business needs, without switching platforms.

Full-Time & Part-Time Jobs

Ideal for

- Permanent positions
- Long-term staffing
- Team expansion
- On-site, remote & hybrid Jobs
- Recurring hiring needs

Contract Marketplace

Ideal for

- Project-based work
- Fixed-price engagements
- Hourly contracts
- Milestone projects
- Specialized expertise

Everything You Need to Hire.

Powerful tools. Flexible options. Better results.

Find Better Candidates

AI-powered matching and resume analysis help surface the strongest applicants first.

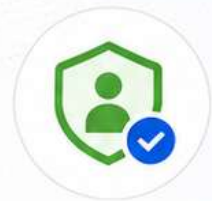

Flexible Hiring Options

Recruit full-time and part-time employees or connect with professionals for contract projects.

Everything in One Place

Post jobs, review applications, schedule interviews, conduct video meetings, and manage workflows.

Quality Over Quantity

Our Application Credit model encourages thoughtful submissions from qualified professionals.

One Integrated Platform.

Full-time, part-time, and contract hiring, all in one place.

GigFinder.ai

AI-Powered Matching.

Our tools actively analyze qualifications, certifications, experience and other profile attributes to rate relevant candidates.

72%
Match

GigFinder evaluates each applicant against your job requirements: qualifications, certifications, experience, salary expectations, technical skills, education, and work preferences. Every application receives a match score, helping your team identify the strongest candidates faster.

Identify Top Candidates Instantly

Automatically rank applicants based on how closely they match your requirements.

Never Miss a Great Applicant

Receive alerts when an applicant meets your match threshold.

Spend Less Time Reviewing Resumes

AI analyzes resumes and profile qualifications so your team can focus on interviewing.

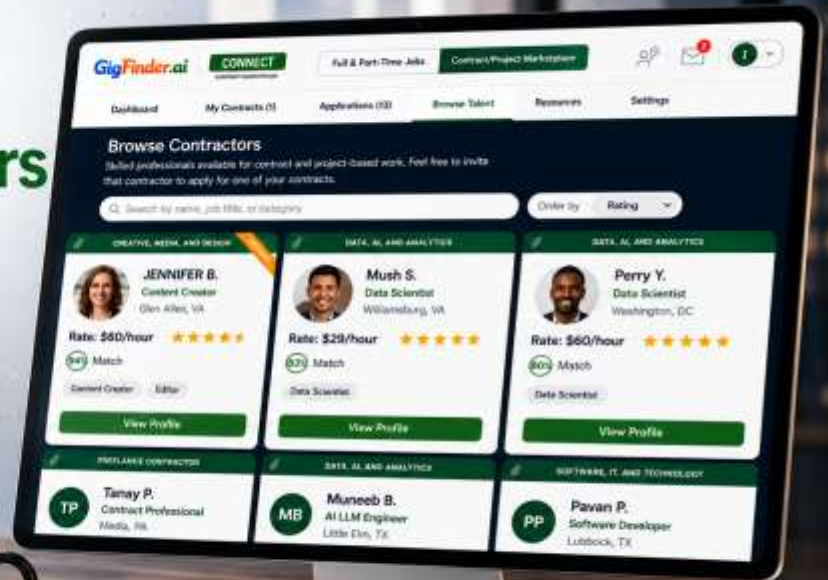

A Better Way to Hire Contractors

Browse talent, list your open contracts, and receive qualified applications that are automatically rated using qualifications, work experience, certifications and more.

Employers Post Contract Projects Free

Verified employers can publish unlimited contract opportunities at no cost.

Built to reward qualifications, not bidding budgets,

A marketplace designed for fair opportunities and real results.

Post contract and project opportunities at no cost and connect with professionals seeking defined, project-based work. GigFinder supports hourly, fixed-price, milestone-based, and longer-term engagements.

Free Contract Postings

Verified employers can publish contract opportunities without a posting fee.

Flexible Engagement Models

Support for hourly work, fixed-price projects, milestones, and defined project durations.

Higher-Quality Applications

Application Credits encourage thoughtful, qualified applications instead of mass submissions.

Manage the Entire Hiring Process.

GigFinder keeps your hiring process on track, from reviewing applications and communicating with candidates to scheduling unlimited in-platform video meetings & interviews.
